PART 1: GENERAL

1.01 METAL DECKING USE

Use of metal deck (form or composite) is not permitted with concrete in exposure category C1, C2, F1, F2, or F3 as defined by ACI 318 Table 4.2.1. Concrete classifications will be noted on project General Notes sheet as stipulated by Design & Construction Standard 03300 Section 1.02.

1.02 METAL DECKING COATING

Minimum galvanized coating on all metal deck utilized on University projects is G60 as defined by ASTM A653.
